

ON TO TOKYO!

Let's all get behind the greatest march in history—the march to Tokyo—and victory!

On countless invasion fronts, thousands of your fighting men are taking up the battle cry: "On to Tokyo!" We've got to back them up with what it takes for complete victory. Remember, the supply lines in the Pacific are long and your fighting men will need more materiel than was required for the entire European invasion to crush the Jap foe.

Let's Echo that cry with BONDS!

Our boys won't quit until they've reached their goal. Let's not stop buying Bonds until we've reached ours! In this 6th War Loan Drive, the Nation's goal is \$14 billions . . . our individual job is to buy at least an extra \$100 Bond . . . another and then another . . . let's keep on going . . . let's keep on buying . . . let's keep on saying it with Bonds . . . "On to Tokyo!"

Registrants Above 29 Subject to Induction

"Registrants above age 29 who have not reached their 38th birth date are still liable for induction," said Brig. General Vian Collins, State Director of Selective Service, in a news conference today, "altho many people seem under the impression that this group of registrants need no longer furnish information to the Local Board."

"Many registrants, age 30 and over, are now in Class I-A and must be ordered for induction," said General Collins, "because they or their employer have failed to furnish the Local Board with current information regarding their work. Written information must be placed in the registrant's file showing that he is actively engaged in some work that makes a contribution to the welfare of the community or nation in order that the Local Board may consider placing the registrant in a deferred class."

General Collins stated that the present policy of occupational deferment for registrants age 30 and over is very liberal, and local boards are making a strenuous effort to obtain current information on these registrants in order that cases warranting deferment may be placed in a deferred classification. Without the necessary information the Local Board has no choice except to order any of these registrants now classified in I-A for induction.

"Registrants in this group now classified in Class I-A should immediately contact their local boards and furnish current information as to their occupational status if this is required," said General Collins in closing the conference.

If you are waiting for a home telephone, we think we know how you feel. You'd like a telephone now, not weeks or months from now. And we'd like to install it for you now.

But so long as the needs of war have a first claim on telephone facilities—and until the manufacture of adequate equipment can be resumed—it just won't be possible to avoid delays in filling telephone orders.

Meanwhile, we are finding an attitude of co-operation and understanding on your part that is greatly appreciated by all of us.

Thanksgiving To Xmas Bible Reading Plan By Bible Society

The desire of every minister to have people read the Bible has led to the selection of 33 passages to be read daily until Christmas has been made by several religious organizations.

This is a nationwide effort and it is hoped that the reading of these by the people at home uniting with the men and women in the service in all parts of the world will bring strength.

BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY INTERNATIONAL BIBLE BROADCASTER

Question—Why did Cain kill Abel?

Answer—The answer is in 1 John 3:12: "Not as Cain, who was of that wicked one, and slew his brother. And wherefore slew he him? Because his own works were evil, and his brother's righteous."

Q—Someone told me that Bible names have meaning. If so, what does "Abraham" mean?

A—It means the Anointed One. In Hebrew it is Messiah. Read John 1:41 (margin): "This first I have said to you, and now I say unto him. We have found the Messiah, which is, being interpreted, the Anointed."

Q—Is there any way for blind people who cannot read Braille to get the Bible or parts of it recorded?

A—Yes. Records of the entire Bible have just been completed and are available to the blind free of charge. The proper authorities will give information.

Q—To settle an argument, I should like to know if Moses was older than his brother Aaron?

A—Apparently not. According to Numbers 25:19 and 23:29, Aaron was the older.

Q—If I don't get much from the sermon at church, isn't it all right for me to stay home and read some thing good?

A—It is hard for a preacher to go through a sermon and not say something good. And do you go to church merely to hear a sermon? What about the words of God? Don't forget Hebrews 10:25: "Not forsaking the assembling of ourselves together, as the manner of one is; but exhorting one another; and so much the more, as ye see the day approaching."

Q—Do I have a right to hate a man who has done me wrong?

A—Isn't this a good one? Matthew 5:44-45: "But I say unto you, Love your enemies, bless them that curse you, do good to them that hate you, and pray for them which despitefully use you, and persecute you; that ye may be the children of your Father which is in heaven: For He maketh His sun to rise on the evil and on the good, and sendeth rain on the just and on the unjust. For if ye love them which love you, what reward have ye? do not even the publicans the same?"

Air Transportation of Vegetables Seen As A Post War Possibility

Shipment of Florida Vegetables to northern markets by air transportation was lifted out of the conversational stage into the realm of practical possibility last week when John M. Lyons of New York, member of the research department of Eastern Air Lines, and LaMonte Graw, manager of the Florida Vegetable Committee, held a series of conferences in Orlando

to explore the problem from a business standpoint.

All phases of the possibilities of the future in air transportation of perishable commodities were discussed, especially refrigeration, schedules, availability of airports to the various crop areas and the relationship of such service to the luxury market.

Following the conference Lyons continued his study by visits to various sections of Florida to secure first hand information on the ground conditions as they affect the various vegetable crop areas.

"The Florida Vegetable Committee is ready to cooperate in every way in this preliminary research into a problem that may have vital bearing on post-war activities of the vegetable industry in Florida," Graw said. "Diligent studies will be continued into all angles of

transportation of vegetables by plane. Naturally it must be approached with a view to arrangements that will provide both the producer and the carrier a profit."
